

Mina Magdy Samy

Motivated and detail-oriented Automotive Mechatronics Engineering student with a strong foundation in mechanical systems, electronics, and vehicle automation. Currently pursuing a Bachelor's degree at Helwan University, with hands-on experience in CAD design, embedded systems, and control theory. A quick learner with strong teamwork and problem-solving skills, seeking internship or project opportunities to apply theoretical knowledge in real-world

+20-121-091-4553 | minacr7magdy@gmail.com | Trumph Square, Heliopolis, Cairo, Egypt

Training Experience and Activities

- Completed **Automotive Engineering Training Course** at Engovation Training Center (Summer 2024)
- Self-directed online learning in automotive systems and mechatronics principles
- Completed online courses in CAD software (e.g., SolidWorks, AutoCAD)
- Attended technical webinars on programming skills (Python/C++) and automotive technologies
- Participated in university projects related to mechatronics and automotive engineering
- Active participant in blood donation campaigns and Scout team activities

Skills

- Proficient in Microsoft Office (Word, Excel, PowerPoint)
- Strong problem-solving and analytical thinking
- Leadership, time management, and emotional intelligence
- Effective team collaboration and multitasking abilities
- Highly adaptable with a strong willingness to learn

Education

Bachelor of Engineering – Automotive Mechatronics

Faculty of Engineering, Helwan University – Mataria Branch - Cairo, Egypt | 2022 – Expected 2027

Thanaweya Amma Certification (General Secondary Certificate)

Military Secondary School for Boys – Minya, Egypt | Class 2022 | Grade: 93.7%

Languages

- **Arabic:** Native
- **English:** Bilingual
